+ NODUS® PAYLINK

GET PAID FASTER

When customers don't pay on time, rely on the integration of Collections Management by Professional Advantage and Nodus PayLink for Microsoft Dynamics® GP to get your payments faster.

AUTOMATIC:

Collections Management + Nodus PayLink allows you to send automated follow-up and reminder emails before, on, or after invoice due dates. With the click of a button from that message, your customer can view electronic statements and make one easy payment via payment link totaling for one or several invoices, without registering for an account or logging into a website or payment portal.

ON THE FLY:

While performing ad hoc inquiry, users can review a customer's current aging, select which invoices they need for payment, and the system will generate one payment link to send to the customer.

Give your customers the power and convenience of fast and easy payment processing online, while you have the peace of mind knowing that your invoices are being collected securely and efficiently.
